AND ELEGANT FRAME DESIGN

**VISOTTICA**  
GROUP

Visottica Group brings you the WF Style,  
fully integrated monobloc flex wirecore  
~  
design and production  
by Visottica Group

V

V

For clean elegant frame design

## FEATURES

Grooved surface for a firmer grip on the temple.  
No additional screws or glue are needed to secure the wirecore.

90° Insert Hinge.

### Special feature:

Patented Self-Alignment & Easy Screw System.  
The screw can also be applied from underneath.

WF Style allows a clean frame design without setting aside all the advantages of a flex hinge.

The wirecore is inserted in the acetate temple through a standard process of temple core-shooting.

The Self-Alignment & Easy Screwing System facilitates the assembling of the temple and front piece both in production and in the after-sale phase, while also preventing the loss of the screw during the use of the glasses.

The screw can be applied from underneath staying out of sight, for clean sharp design lines.

The product is supplied in a nickel-silver color. Other galvanic colors are available on request.

PRODUCT

WIRECORE

Material: **Nickel silver** - Trolley: **Hard Trolley**

L 130 | 03WFCF104A130SNX  
L 135 | 03WFCF104A235SNX

Soft Trolley available on request.

HINGE

Material: **Nickel silver**

90° INSERT HINGE | 03FRCF012A2BN0

Two assemble options with the insert hinge  
0 degrees: the screw can be applied from
